CAREER OBJECTIVE

Academically accomplished CSE student (**CGPA 9.62/10**, Department Topper & **First Rank for five consecutive semesters**) seeking to leverage hands-on Generative AI with LLM experience, strong analytical and problem-solving abilities, and passion for innovation to contribute to a forward-thinking organisation and grow as a software professional.

EDUCATIONAL QUALIFICATIONS

Degree / Examination	Institution	Year	Score
B.Tech – CSE	AITS, Tirupati	2023–2027	CGPA: 9.62/10
Intermediate (MPC)	Vikas Junior College, Kuppam	2021–2023	972 Marks
SSC	ZP High School, Vijalapuram	2020–2021	GPA: 10/10

TECHNICAL SKILLS

Programming Languages: Java, C, Python (Basic)

Web Technologies: HTML, CSS, JavaScript (Basic)

Databases: SQL (Basic), DBMS (Basic)

Core Concepts: Data Structures & Algorithms, OOPs

Tools & Platforms: GitHub, VS Code

Coding Profiles: LeetCode, GeeksforGeeks

INTERSHIPS

Generative AI with LLM Intern | Skill Desire

- Gained hands-on experience in Generative AI, Large Language Models (LLMs), and prompt engineering techniques.
- Worked on LLM-based projects exploring text generation, summarisation, and AI-powered automation workflows.
- Implemented and fine-tuned prompts for various LLM APIs to produce high-quality, context-aware outputs.
- Developed understanding of transformer architectures, tokenisation, and foundational concepts of modern LLMs.
- Built mini Generative AI applications and explored retrieval-augmented generation (RAG) and chain-of-thought prompting.

MERN Stack Development Intern | Brain O Vision

- Acquired practical exposure to MongoDB, Express.js, React.js, and Node.js technologies.
- Developed responsive web applications and understood full-stack development workflows.
- Worked with REST APIs and database integration concepts for dynamic data handling.
- Gained experience in component-based UI design using React and state management techniques.

PROJECTS

AI-Powered Schema-Aware Test Data Generator | Python, SQL

- Developed a tool analysing DB schemas to auto-generate realistic synthetic test data.
- Implemented automated validation pipelines ensuring data integrity and schema compliance.

Community Service Project – Android Phone Usage by Different People | Survey & Analysis

- Conducted a community-level survey analysing Android phone usage patterns across different age groups, professions, and demographics to understand digital behaviour trends.
- Compiled and presented findings highlighting key insights on app preferences, screen time habits, and accessibility challenges faced by diverse user segments.

DSA Practice Repository | Java, Python

- Maintained a structured GitHub repository containing solutions to 100+ Data Structures and Algorithms problems across topics such as arrays, linked lists, trees, graphs, and dynamic programming.
- Organised problem sets by difficulty and topic with well-documented code and time/space complexity analysis to support consistent competitive programming preparation.

Generative AI Mini Project | Python

- Explored Generative AI and prompt engineering through practical hands-on implementation with language model APIs.

CERTIFICATIONS

- Generative AI with LLM Internship – Skill Desire
- Generative AI Workshop & Hackathon Participation Certificate
- Lorecron-2K24 Technical Event Certificate
- MERN Stack Development Internship – Brain O Vision
- Quantum Computing Certification

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Department Topper – CGPA 9.62/10** (B.Tech CSE, AITS Tirupati)
- 972 Marks in Intermediate** – Achievement recognised in a newspaper
- First Rank for Five Consecutive Semesters**
- Active participant in coding contests, workshops, hackathons and technical events

STRENGTHS

Problem Solving • Quick Learner • Leadership • Adaptability & Time Management • Team Collaboration
