CAREER OBJECTIVE

Seeking an entry-level Software Engineer position where I can apply my knowledge of Java, SQL, Data Structures, and problem-solving skills to contribute to innovative software solutions while continuously learning and growing within the organization.

EDUCATION

Bachelor of Technology in Artificial Intelligence & Data Science

Annamacharya Institute of Technology & Sciences, Rajampet

CGPA: 8.68

2023 – Present

Rajampet

Intermediate (MPC)

Narayana Jr.College, Vijayawada

Percentage: 85.00%

2020 – 2022

Vijayawada

SSC

Sri Vani High School, Tadipatri, Ananthapur

GPA: 10.0

2019 – 2020

Tadipatri, Ananthapur

TECHNICAL SKILLS

Programming Language

- Python
- Java

Database

- SQL
- MYSQL

Data Structures & Algorithms

INTERNSHIPS

Data Science Intern

- Pantech e-Learning Learned data preprocessing and explanatory data analysis.
- Worked with Python libraries such as Pandas and Numpy.
- Gained understanding of machine learning concepts and model development.

AIML with Python (Pursuing)

- Learning machine learning algorithms and data visualization techniques.
- Working on practical AI and predictive analytics use cases.

PROJECT WORK

COMMUNITY SERVICE PROJECT-SANITATION AND WASTE MANAGEMENT

- Worked on a community service project focussed on sanitation and waste management by conducting surveys, identifying cleanliness issues, and creating awareness about proper waste disposal and hygiene practices.

Schema-Aware Test Data Generator

- Developed a tool that automatically generates realistic test data based on database table structures and constraints. The project helps create valid sample records for testing applications, reducing manual effort and improving data accuracy.

CERTIFICATIONS

Data Science

- Issuer: Pantech e learning

AIML with Python Certification (pursuing)
