CAREER OBJECTIVE

Academically accomplished CSE student (CGPA 9.62/10, Department Topper & First Rank for five consecutive semesters) seeking to leverage hands-on AI and MERN Full Stack Development experience, strong Java/Python programming skills, and passion for innovation to contribute to a forward-thinking organisation and grow as a software professional.

EDUCATIONAL QUALIFICATIONS

Degree / Examination	Institution	Year	Score
B.Tech – Computer Science & Engineering	AITS, Tirupati	2023–2027	CGPA: 9.62/10
Intermediate (MPC)	Vikas Junior College, Kuppam	2021–2023	972 Marks
SSC	ZP High School, Vijalapuram	2020–2021	GPA: 10/10

TECHNICAL SKILLS

Programming Languages: Java, C, Python (Basic)	Core Concepts:	Data Structures & Algorithms, OOPs
Web Technologies: HTML, CSS, JavaScript (Basic)	Tools & Platforms:	GitHub, VS Code
Databases: SQL (Basic), DBMS (Basic)	Coding Profiles:	LeetCode, GeeksforGeeks

INTERNSHIPS

Artificial Intelligence Intern | Skill Desire

- Gained hands-on experience in Artificial Intelligence, Machine Learning, and Generative AI concepts.
- Worked on AI-based projects and explored practical applications of intelligent systems.
- Developed problem-solving and analytical skills through project-based learning.
- Learned prompt engineering, AI workflows, and intelligent automation concepts.
- Implemented mini AI models and understood core principles of data preprocessing and model evaluation.

MERN Stack Development Intern | Brain O Vision

- Acquired practical exposure to MongoDB, Express.js, React.js, and Node.js technologies.
- Developed responsive web applications and understood full-stack development workflows.
- Worked with REST APIs and database integration concepts for dynamic data handling.
- Collaborated on web development tasks following industry-standard coding practices.
- Gained experience in component-based UI design using React and state management techniques.

PROJECTS

AI-Powered Schema-Aware Test Data Generator | Python, SQL

- Developed a tool analysing DB schemas to auto-generate realistic synthetic test data.
- Implemented automated validation pipelines ensuring data integrity and schema compliance.
- Reduced manual test data creation effort significantly through intelligent automation.

Flash Card Learning Application | HTML, CSS, JavaScript

- Built an interactive flashcard platform with flip animations and category-based organisation.
- Designed a clean responsive UI enhancing student engagement and knowledge retention.
- Implemented progress tracking for a persistent and personalised user experience.

Generative AI Mini Project | Python

- Explored Generative AI and prompt engineering through practical hands-on implementation.
- Experimented with language model APIs to build creative text-generation use cases.
- Analysed AI-generated outputs and iterated prompts to improve result quality.

CERTIFICATIONS

- Artificial Intelligence Internship Certificate – Skill Desire
- MERN Stack Development Internship Certificate – Brain O Vision
- Generative AI Workshop & Hackathon Participation Certificate
- Quantum Computing Certification
- Lorecron-2K24 Technical Event Certificate

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Department Topper – CGPA 9.62/10 (B.Tech CSE, AITS Tirupati)
- First Rank for Five Consecutive Semesters
- 972 Marks in Intermediate – Academic achievement recognised in a newspaper
- Active participant in coding contests, workshops, hackathons and technical events

STRENGTHS

Problem Solving • Quick Learner • Leadership • Adaptability & Time Management • Team Collaboration
